Message

Dear Colleagues,

We are very happy to inform you that the Family Benefit Scheme of AIOS is growing well. The FBS-AIOS society started in 2004 and since then we have been growing steadily. The membership of FBS has now crossed 4330 and 190 families of the deceased FBS members have benefited from this scheme. The death benefit started with Rs 50,000/- and in a span of 15 years, we have reached 23 lakhs in terms of the benefit provided to the families of a deceased FBS member. For the amount that a member pays yearly during his lifetime, 23 lakhs is a huge sum. Unfortunately due to the prevailing circumstances last year the number of deaths was record high and hence the fraternity contribution required by each member was high. But such situations do not persist perpetually and we are sure that the contribution needed per year will be much less in subsequent years. Further with time as the membership will increase, the benefits will also increase and the yearly contribution from each member will keep on decreasing.

This society is unique in the sense that the money of the members is managed by the members themselves or their elected representatives. There is no commercial organization involved in this. Hence whatever money is collected from the members it is used to provide the death benefit to the family of a deceased FBS member.

To make the FBS-AIOS society better, the managing committee of this society has come out with a very good and unique scheme this year (2021) for the new young ophthalmologist. This makes the society dynamic as it is willing to bring changes that will suit our members. This scheme has been launched following discussion of the feedback given by our own members as well as AIOS members keen to join the society.

We have continued the “YO” scheme this year which was a great success last year, in which we added more than 200 members who are still counting and members have shown great interest in this scheme and this year AGBM have decided to continue this for this financial year as well.

We have made the joining of young members easier by removing the mandatory clause of a certificate by a physician regarding their health for all those who are less than 40 years old. They only have to sign a self-declaration regarding their health, the format of which has been uploaded on the website. It will make their joining FBS much easier than before.

The most important thing is that the benefit is provided to all the family members without any hassle and without much paperwork. Currently, we do direct money transfers to the account of the beneficiary and the money is available in their account within 10-14 days of their application.

Friends, this is a mutual help scheme, which is run by the members for the members. It is a unique scheme where your contribution helps to secure the future of your family and your colleagues. No other term insurance company will offer you this type of scheme in their companies. Be smart and think about your family member's good future and invest your money in the right place and take advantage of these schemes by joining FBS-AIOS.

We request the members to send inputs and their ideas for the benefit of FBS AIOS

Best Wishes
